

To Whom It May Concern,

My family and I have been listening to K-Love radio station for about 6 years now. My husband was the one who found the radio station one day as he was tired of listening to the same repeated songs on the radio as well as the monotonous commercials. He found that breath of fresh air on K-Love.

K-LOVE' s dedication to putting on the air, a positive and inspirational music has changed our lives daily. We start our day by listening to K-Love in the morning on our way into town to drop off my son at school. It gives my children and I some time to praise the Lord wholeheartedly without any distractions. My children, ages 1 1/2 and 4 1/2 have grown to know the words to the songs. It says in the Bible that we are to ingrain God's word into our children and press it into their hearts daily. By listening to God's word being sung, my children are doing just that, learning from God's word. To me, that is the most important thing in this world is to have my children know the Lord as their personal Savior. Not only that, but as a singer at church, I have been inspired by the beautiful music played on K-Love. I have sang numerous songs at church that I have grown to love over the years of listening to KLOVE. Through this ministry I have had a chance to touch many people's hearts through the songs that I have sung. Interesting enough, the radio announcers have become our friends, even though we have never met. We look forward to turning on the radio and hearing our familiar friend's voices, John and Sheri Rivers as well as the others.

I can not imagine how many people, locally, have given their lives to Christ while listening to KLove. The population that would be greatly affected , by not having KLove would be the younger generation. Their cry for acceptance and a personal relationship with our Living Lord can be heard nation wide. We can reach them through the postive and encouraging message on K-LOVE. We can not take that away from them, in their hour of need for a Saviour. Our local Christian radio station is wonderful as well, however, the music played is geared toward the older generation. Dozens of teens from our church listen to KLove. Their faith for Christ is on fire! They love the Lord and are not ashamed to tell others about their faith. Listening to KLove gives them that extra spiritual support needed to live out their daily Christian lives.

My family and I will be in prayer that KLOVE will remain in the listening area of Bismarck. We will pray that it will continue to change lives for Christ. I hope that my children when they reach the teenage years will be able to find an inspirational station like KLOVE to listen to.

Love Through Christ,

Kimberlee Collado
